Pretend – (sung by Nat King Cole 1952)

C         G7                          C
Pretend you're happy when you're blue
              Dm
It isn't very hard to do
          F                            G7
And you'll find happiness without an end
         F    G7    C
Whenever you pretend

G7             C
Remember anyone can dream
               Dm
And nothing's bad as it may seem
         F                            G7
The little things you haven't got
         F    G7    C
Could be a lot if you'd pretend

Em             F
You'll find a love you can share
       C
One you can call all your own
      Am                        F
Just close your eyes he'll be there
     Em                G7
You'll never be alone

C         G7                          C
And if you'll sing this melody
              Dm
You'll be pretending just like me
          F                            G7
The world is mine it can be yours my friend
         F    G7    C
So why don't you pretend
